

## Press Release

February 1, 2005

Utility Systems Inc.  
Indianapolis, Indiana

### Utility Systems, Inc. Announces Organizational Changes

Utility Systems, Inc. announced organizational changes in the USI Management Team.

Jon Goodson is named Product Manager for the USI Product Group and will now be the lead contact for sales and service support. Jon has over fifteen years of experience with Utility Systems, Inc. His long-term dedication and knowledge of USI products is unsurpassed. Jon's experience with both the USI products and utility customers will serve the industry well.

Roger LaValley, MI/USI Sales Manager will support Jon Goodson through initial contact inquiries, trade conferences and marketing activities. Roger has over 30+ years of experience in the Electric Utility Industry where he served in a variety of engineering and sales positions with Utility Systems Inc. and RFL Electronics Inc., another leading supplier to the Electric Utility Market.

Jim Kinsley, USI Support Engineer, will be responsible for the current operating software for our Model 2002 Digital Fault Recorder and the Model 3002 Sequence of Event Recorder. He will be assisted by our MI/USI software engineering team. Jim has ten years of dedicated service and support of Utility Systems Inc. Jim will support and expand the capabilities of our existing products while taking in your comments for potential new products or enhancements.

Utility Systems Inc. has long been a leader in the design and construction of digital fault recording equipment. Our company's heritage spans over thirty years with a commitment to accuracy, reliability, and service. Last year we introduced our "next generation" Model 2002 triple function fault recorder, sequence of event recorder, and disturbance recorder along with our Model 3002 stand alone sequence of event recorder. Both products take advantage of state-of-the-art DSP and USB technology.

Utility Systems Inc. is supported by a team of 50+ dedicated employees including 20+ engineers and technicians. We believe these changes will provide enhanced service and support to our existing customers and expand our market for USI products.
